North Memorial Health | MNA
2019 Negotiations

May 16, 2019

PACKAGE PROPOSAL

U-31. Keep current contract language in Article 51(C). Have LOU—

During the 2019 negotiations, the Hospital and Association agreed that, during the term of the 2019—2022 collective bargaining agreement, the parties will jointly work on the issue of nurse education in Joint Staffing, or in a specially-created joint committee or task force, whichever the Association prefers. The aim is to create a plan for delivering education in an ideal manner with the right mix of offering education during designated education sessions rather than during a nurse's normal scheduled work shift, acknowledging that the balance has recently tipped towards too much education delivered through Healthstreams. The parties agree to focus on this issue during the second half of 2019, with the objective of creating a new plan by the end of the year.

Union drops or withdraws U-23 as part of this package.
