EXHIBIT 5-c

X. Physical Violence and Verbal Abuse:

The Hospital will have a trained response team(s) which will respond to all emergency situations where physical violence, the threat of physical violence, or verbal abuse occurs. A process will be developed to record and report these incidents of a non-emergency nature. These records will be evaluated by the Hospital's ~~COMMITTEE AS PROPOSED ON MAY 24~~ Committee when the situation involves a registered nurse.

Nursing Health and Safety

The Hospital will continue to evaluate the appropriate use of technology, visual cues and other reasonable means for alerting staff that a patient, patient's family member or visitor has a history of violence on the Hospital campus.

or other committee designated by the parties

Hospital security will be alerted and engaged as appropriate to support and promote a safe work environment.

On obstetric units, a social screen is to be completed upon admission to determine appropriate security measures.

Signage will be posted and clearly visible at all nurse stations on all units in the Hospital that indicates violence of any kind is not permitted on Hospital premises.

That Hospital shall immediately notify all staff working on the premises if there is an event that creates a building lockdown protocol. Staff will be given detailed instructions that include actions to be taken for the protection and well-being of patients, visitors, and employees.

The Hospital will encourage registered nurses who are victims of assault in the workplace to recognize the potential emotional impact and offer counseling or other delayed stress debriefing through EAP services. Nurses are encouraged to report all incidents of workplace violence and to contact the Employee Occupational Health or the Emergency Department following any incident of workplace violence. Employee Occupational Health will contact the nurse's leader to coordinate the implementation of post-incident protocols and facilitate support and resources for the affected employee(s) (such as EAP services).

Following the report of a violent event a documented debrief will take place as appropriate that includes staff involved and other members of a typical debrief team or their designee(s). The intent of the debrief is to create a safe space for staff to discuss the event. The debrief will be scheduled to occur as soon as reasonably possible (reasonable effort will be made to have this debrief in 72 hours) after report of the event has been received.

In addition, a registered nurse who has been assaulted at work and is unable to continue working will be given the opportunity to be free from duty without loss of pay for the remainder of that shift. If additional time away is needed the Employee Occupational Health will explore options with the nurse via programs and resources and offerings available such as paid administrative leave and assistance with the Workers' Compensation process.

Upon receipt of verifiable medical certification confirming physical or emotional injury necessitating additional time off beyond the day of the incident, the Hospital agrees to grant the nurse up to three consecutive calendar days off without loss of pay immediately following the date of the incident, in the form of paid administrative leave. The incident of workplace violence must be reported by the nurse in order for the nurse to be eligible for any paid administrative leave. However, if a report is made more than three days after the event (but in no event later than ten days) administrative leave may be provided retroactively.

A nurse who has experienced violence that was committed by a patient, that patient's family, or that patient's visitor shall not be required to assume the assignment of that patient on a future date without the consent of the nurse or in the case of emergency.
